Problem List Display

To maintain the Annotated Display of a problem for a patient across encounters, update the selection to be **Chronic** only. **This Visit** cannot be checked until after changes are made.

STEP 1: Search and/or select the applicable problem and mark as Chronic.

STEP 2: Left-click the problem.

STEP 3: Select Modify.

- <u>STEP 4</u>: Within the **Display As** field, update the language as appropriate.
- <u>STEP 5</u>: Select **OK** to save the changes.
- <u>STEP 6</u>: The updated Problem displays within the Problem List component and **This Visit** can be selected.

Preanesthesia PowerNote

Edentulous has been added as an option in the Preanestehsia Evaluation PowerNote and the Preanesthesia Evaluation Short Form PowerNote. The selection is located within the **Physical Examination** section under **Mouth**.

Username/Password for 724Access Computers

Millennium Downtime 724Access Downtime Viewer Computers are located on each unit. IS Operations develops a new password after each downtime.

The username stays the same: **724access** and the password is found on the IS HelpDesk page and the IS HelpDesk phone message. IS Operations also sends the updated password to Nursing Managers responsible for printing and adding it to the downtime toolkits.

Status updates that are posted on the Status Page, also contain the password. The **Status Page** is found via the intranet page by selecting the **Information Systems – (IS)** quick link and scrolling down on the left and selecting **System Status**.
