

The available flowsheets in Results Review have been updated to align with Cerner Model and to streamline where information displays making it easier to locate. As part of this work, new flowsheets have been added and others removed.

**New Flowsheets**

Fourteen new flowsheets have been added.

Ambulatory POC Flowsheet	Patient History View
Ambulatory View	PCP Specialty Flowsheet
Anesthesiology View	PT Outcome Measures View
Assessments – Provider View	Restraint View
Bridge View	SLP Outcome Measures
Education View	Social Determinants Reporting
OT Outcome Measures View	VTE Advisor

**Removed Flowsheets**

A total of 51 flowsheets were removed. The table below will serve as a crosswalk for where the information in the removed flowsheets can be viewed.
