

This flyer outlines the process for ordering the necessary testing for Monkeypox Orthopoxvirus specimens.

**Placing Orthopoxvirus/Monkeypox orders in Referral Test order**

**STEP 1:** Contact Local Infection Prevention Department first for guidance on which **Test Name** below to enter in the **Referral Test ALI** orders and the required number of specimens to collect.

- Orthopoxvirus by PCR ARUP
  - Processed in ARUP Lab.
- Monkeypox HETL
  - Sent to State Lab for processing.

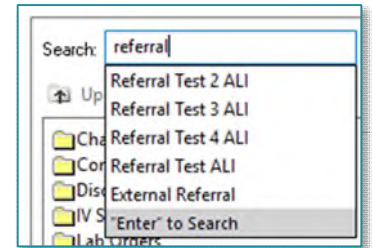

**REMEMBER:** When directed by your Local Infection Prevention Department, complete the HETL Orthopox Submission Form and send with the specimen.

**STEP 2:** Navigate to **Orders**.

**STEP 3:** Search **Referral Test ALI**.

- A Referral Test order will need to be entered for each specimen.

**NOTE:** Please contact your local Infection Prevention Department first for guidance on which **Test Name** to use and required number of specimens to collect.

**STEP 4:** Referral Test ALI: Enter the name of the test Infection Prevention as instructed to order.

- Monkeypox HETL or Orthopoxvirus by PCR ARUP.

**STEP 5:** Enter the **Frequency** as **Once**.

**STEP 6:** In the Referral Info ALI field, enter the **Lesion number (1,2,3)** and **Lesion location** which coincides with the Referral Test ALI number.

**STEP 7:** Repeat Steps 1-6 for Referral Test 2 and 3.

**STEP 8:** Select **Sign**.
