## Cross Venue Changes

### Labs Component

- Updated to display results in flowsheet view
-

# CommunityWorks Monthly Update – February

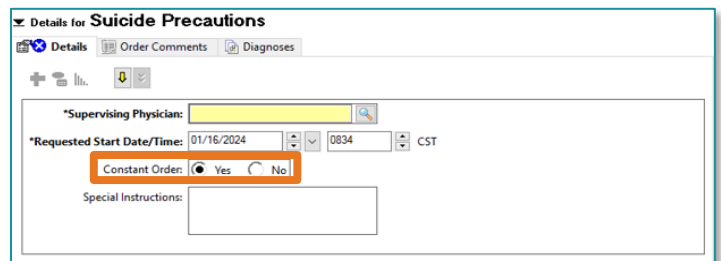

- Toggle the flowsheet on view by using the icons below switch back to ambulatory view if

needed.

## REMOVED: Height/Length Field Auto-fill

- Height/Length will no longer pull last charted value from previous encounters on the following forms:
  - Ambulatory Quick Intake Ambulatory
  - Comprehensive Intake
  - Medicare Visit Form
  - Pain Management

## Suicide Precautions Constant Order Update

- Now have the option to select constant order.

## Behavioral Health

### Outpatient Master Treatment Plan Powerform

- Short term removed.
- IPOC Smart Template being removed.
- Added long term goal grids.
- Added 15 intervention entry rows.

## Emergency

### ED Triage Pediatric Form

- Length Based Tape Utilized At Arrival and Length Based Tape Color/Weight Indicated will replace the existing *Pediatric Code Armband Applied*.
  - Will be the same answers as the previous Pediatric Code Armband field
  - Corresponding Environmental Safety I-View Section will also be updated to reflect two new fields.

### ED Swallow Screen Powerform

- New form for ED staff to allow quicker documentation of the Swallow Screen.

The screenshot shows a web-based form titled "ED Swallow Screen - ZZTESTREEVTX, ZZTESTREEVTX". The form is divided into several sections:

- Pre-Assessment**:
  - Level of Comprehension/Cooperation**: Radio buttons for "Independently transfers with or without assistive device", "Able to follow simple commands: may need verbal prompting", "Unpredictable in ability to follow simple commands", "Unpredictable or uncooperative", and "No understanding".
  - Positioning**: Checkboxes for "Upright 90 degrees", "Reclined 45 degrees", "Reclined 60 degrees", "Reclined 75 degrees", "Left Side/lying 45 degrees", "Right Side/lying 45 degrees", and "Other".
  - Gag Reflex**: Radio buttons for "Within functional limits", "Absent", "Difficult to elicit", "Hyperactive", "Hypoactive", and "Other".
  - Cough on Command**: Radio buttons for "Yes" and "No".
  - Reflexive Cough**: Checkboxes for "Present", "Absent", "Inconsistent", "Weak", and "Other".
  - Secretion Management**: Radio buttons for "Adequate", "Reduced", and "Other".
  - Oxygen Use**: Checkboxes for "Room air", "Nasal cannula", "Facial mask", "Trach mask", and "Other".
- Swallow Screening Tolerance**:
  - Two radio button questions: "Passed 90ml water challenge without overt signs or symptoms of aspiration" and "Tolerated solid consistencies without overt signs or symptoms of aspiration".
  - A text field for "Clinical Swallow Tolerance Comment".
  - A text field for "Provider Notified".

## Surgery

### Safety Checklist Content Update

- Sign In, Sign Out, and Time Out have been condensed into 6 pages instead of the current 8 pages.

### PNDS Care Plan

- Removing two current PNDS questions from workflow.
- Adding PNDS Care Plan Content to pre-op, intra-op, and post-op workflows to better align with AORN standards.

## CommunityWorks Monthly Update – February

### Obstetrics

#### OB Dynamic Documentation

- OB Clinic Visit (Antepartum) document will be removed from Quick Links.
    - **OB Extended Office Visit Quick Link** is recommended instead.
- 

### Physicians

#### Order Encounter Filter

- Providers can now view previous orders, instead of only viewing orders specific to current encounter.
- 

### Future Enhancements

#### To Be Determined

- Pharmacy
  - Turning off Unverified Orders Monitor Tab in PharmNet: Pharmacy Medication Manager.
    - A similar view can be setup in the Pharmacy Patient Monitor in Powerchart.
- PathNet Blood Bank
  - Default Label Printers will default to the user's workstation. Other printers at the facility will not be viewable.
