MPage Components

Outstanding Orders

Ordered By and Ordering Location columns have been added to Outstanding Orders component.

Home Medications

Reconcile is now available if there are no medication updates or prescription needs.

Clinical Charge Entry (CCE)

- My Favorites replaced E&M and Procedure Favorites folder with CCE.
 - Create subfolders in **My Favorites** using the **Star** icon.
 - Save as a favorite in detail window.

Tagged Items

- Tagged text icon is not changing color to indicate items were tagged to the clipboard.
- Remove Tag button does not update appropriately. Once you click remove tag, you must refresh the component and start tagging over in order to show accurate information.
- Remove Tag button in Media Gallery is causing an error message when attempting to remove. Refreshing the component will remove the error message and tagged item.

Problem Favorites

- Organizing Folder Maintenance is not opening when clicking Organize Favorites in the dropdown.
 - Use the following steps to manage problem favorites.
 - Click Add.
 - Right-click the favorite folder name.
 - Click Organize Favorites.

Oncology Correction

Oncology Copy Forward Freezing Issues

- A package with the Code Upgrade has fixed several issues that were causing PowerChart to freeze/crash. These issues were identified during the Oncology Project Go-Live.
 - Examples:
 - When a Nurse Practitioner proposed a plan to a provider to co-sign that included a prescription, it would cause PowerChart to crash for the co-signing provider.
 - When providers order the next cycle of treatment and copy forward the details from the previous cycle, the **Routing Location** for prescriptions as well as **Required Fields** in other orders did not copy forward.
 - The system does not fire an alert or warning of any missing details as typically seen when **Required Fields** are not filled out. This caused PowerChart sessions to freeze.

For questions regarding process and/or policies, please contact your unit's Clinical Educator or Clinical Informaticist. For any other questions please contact the Customer Support Center at: 207-973-7728 or 1-888-827-7728.
