

March 18, 2024

Carequality is a national health information exchange, exchanging patient data and the ability to import the Continuity of Care Document (CCD), which includes the allergies, medications, and documents from referral sources.

## Download the CCD

- **<u>STEP 1</u>**: Select Carequality tab within **##Referral/Intake** workflow.
- **<u>STEP 2</u>**: Tap New Search.
- <u>STEP 3</u>: Using the **Included** column, select associated box for referral source.
- <u>STEP 4</u>: Tap OK.
- **<u>STEP 5</u>**: **Status** will show **Complete** when the import is done.

Carequality Inbound Patient Information

## Import the CCD

- **<u>STEP 1</u>**: Single click to select the CCD.
- **<u>STEP 2</u>**: Review the **Patient Information**. If useful information is present, select **Save** then select **OK**.
  - This will save the document to the chart.
- **<u>STEP 3</u>**: Select the **Documents** menu, then select **Inbound Patient Information**.
- **<u>STEP 4</u>**: Select the **CCD Import** tab.
- **<u>STEP 5</u>**: Patient information listed in the CCD column is not currently in the chart.
  - Tap the box in the CCD column to add the information to the download.
  - Tap the square in the Continue column at the top of any section to choose all items in the section.
