Northern Light Health

Medications from the referral source may be added to the lower part of the Medications screen. These can be added directly from the list.
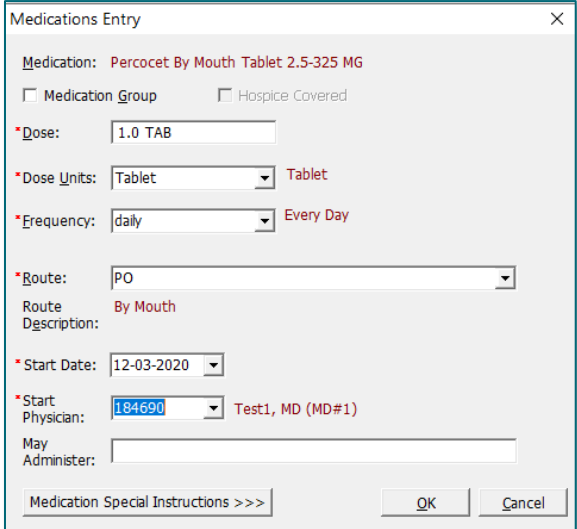

➢ **Open patient chart.**

- Open **Medications** screen.

- Review the Pending Medications in the lower part of the screen. Click the **Medication** column name to sort in alphabetical order.

Pending Medications						Action	
Medication	Dose	Route	Frequency		Start Date		
Apixaban	5.0				06-25-2021	Include	Exclude
Atorvastatin Calcium	40.0				09-15-2021	Include	Exclude
Augmentin	1.0				09-22-2021	Include	Exclude
Captopril	25.0				01-25-2021	Include	Exclude
Clopidogrel Bisulfate	75.0				09-22-2021	Include	Exclude

➢ **Perform Medication Reconciliation.**

- If the patient is no longer taking the medication, click the **Exclude** button.

- Click the **Include** button to add each current medication to the chart.
  - Enter the required information in the **Medication Entry** box.
  - Click **OK** to add the medication to chart.

➢ **Repeat the process for each medication. Manually add any additional medications.**

NOTE: The COPY function is still available for Readmissions.
