

This flyer outlines the process for ordering the necessary testing for Monkeypox Orthopoxvirus specimens.

**Placing Orthopoxvirus/Monkeypox orders for Testing at ARUP**

**STEP 1:** Contact Local Infection Prevention Department first for guidance on the required number of specimens to collect and transport instructions.

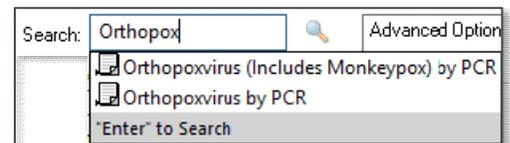

- **Orthopoxvirus by PCR / Orthopoxvirus (includes Monkeypox) by PCR**
  - Processed in ARUP lab.
  - Results will be received electronically.
  - All Specimens need to be collected in the Viral Transport Media (VTM).
  - Call Local Lab for Viral Transport Media.

**NOTE:** Please contact your local Infection Prevention Department first for guidance on the required number of specimens to collect and if the Referral Test order needs to be used.

**STEP 2:** Navigate to Orders.

**STEP 3:** Search for Orthopoxvirus.

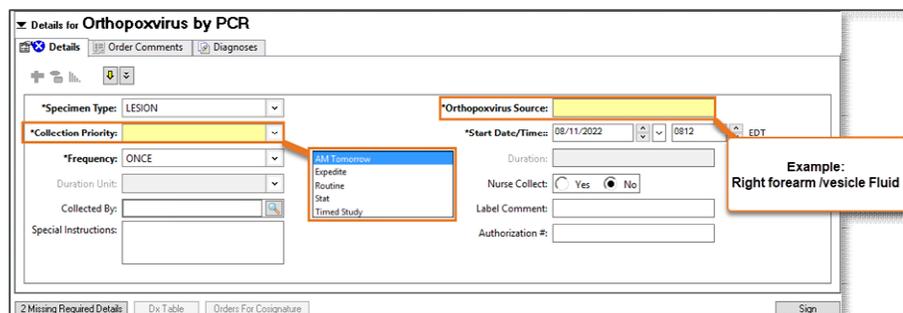

- Select either **Orthopoxvirus by PCR** or **Orthopoxvirus (includes Monkeypox) by PCR** (these are the same order).
- An order will need to be entered for each lesion location.

**STEP 4:** Enter the **Collection Priority**.

**STEP 5:** Enter the **Orthopoxvirus Source**.

- Site and Source of Specimen
- A separate order will need to be entered for each lesion location.

**STEP 6:** Repeat Steps 1-6 for each lesion location when directed.

**STEP 7:** Select **Sign**.

**REMEMBER:** The following instructions for a Referral Test are only necessary if specifically requested by local Infection Prevention.

## Placing Referral Test orders for testing with HETL

- STEP 1:** Your local Infection Prevention Department will provide Collection and Transport instructions.
- Monkeypox HETL.
    - Sent to State Lab for processing.

**REMEMBER:** When directed by your Local Infection Prevention Department, complete the HETL Orthopox Submission Form and send with the specimen.

**STEP 2:** Navigate to **Orders**.

**STEP 3:** Search for **Referral Test**.

- A Referral Test order will need to be entered for each specimen.

**STEP 4:** TEST NAME: Enter **Monkeypox HETL**

**STEP 5:** Enter the Frequency as **Once**.

**STEP 6:** Special instruction, enter the lesion number (1,2,3) and lesion location which coincides with the Referral Test number.

**STEP 7:** Repeat Steps 1-6 for additional **Referral Test**.
