

GetWell Inpatient (GetWell Acute) uses smart TV technology to engage patients in the management of their care. GetWell Inpatient provides personalized care plans to assist with the patient’s learning process and preparation for discharge. The key to the solution is the integration with Cerner that allows the nurse to assign educational videos and monitor the assignments for completion, while allowing the patient to complete viewing at a time convenient for them.

GetWell Inpatient

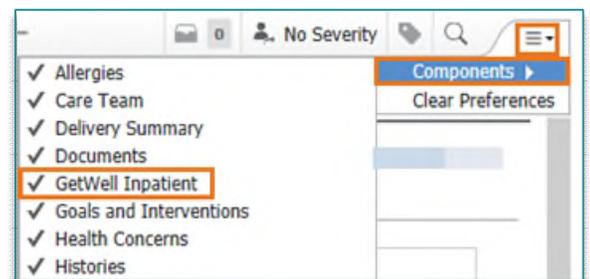

From the Admission, Handoff or Discharge MPage:

- Add the GetWell Inpatient Component.

STEP 1: Select the **Menu** in the upper right corner.

STEP 2: Select **Components**.

STEP 3: Select **GetWell Inpatient**. Once there is a checkmark visible, the component will show face up on the MPage.

NOTE: If you exit PowerChart using the exit door  to save the updated settings, the above three steps will only need to be completed once.

- Using the GetWell Inpatient Component.

STEP 1: Locate the **GetWell Inpatient** component.

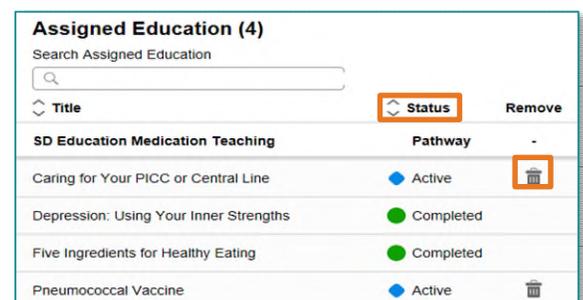

STEP 2: Assigned Education displays in the component.

- The status of the education completion will display, and items may be removed from the assigned education if needed.

STEP 3: To select additional education appropriate for the patient, click **Add Education**.

- Choose the appropriate option (Education Sets, Pathways, or Library) within **Add Education**.
