

From the Office of Clinical Informatics Wound Care Inpatient Wound Nurse

June 6, 2023

Wound Care Nurses in the inpatient setting use the Wound Ostomy Note AdHoc form to document consult services. Wound assessments and dressing changes are documented in iView.

Inpatient Wound Care Workflow

- **<u>STEP 1</u>**: Go to the **Patient List** in the toolbar and locate the patient on the appropriate unit they are on and open the chart.
 - Review the patient's chart and orders for wound care.
- **<u>STEP 2</u>**: Navigate to iView and open the **Wound and Ostomy Consult** band.
 - For instructions on how to pull in iView bands, please see the following <u>flyer</u>.
- **<u>STEP 3</u>**: Click the **Incision/Wound/Skin** section.
- **<u>STEP 4</u>**: If there is a dynamic group already created, document wound care using the existing dynamic group.
 - Create a **Dynamic Group** for a new wound by selecting the waffle icon.
- **<u>STEP 5</u>**: Complete fields in the **New Dynamic Group** window applicable to the wound.
 - To begin documenting on the wound created, double-click in the blue banner below the date and time to get a checkmark to allow for tabbing for quick documentation.
 - Abnormality Type opens.
 - If the wound is pressure injury, select Validated for Pressure Injury.
 - For more information about the Pressure Injury Validator workflow, click <u>here</u>.
 - Once complete, sign the documentation by clicking the green checkmark.
- STEP 6:Navigate to AdHoc on the toolbar to open the Wound/OstomyNote Form.
- **<u>STEP 7</u>**: Complete the following sections:
 - Wound Ostomy Consult: Used to capture consult recommendations.
 - Wound/Ostomy Note: Free-text component that allows for documenting a narrative. This can be used as a running narrative as it pulls in previous documentation entered in this section of the form.
 - (MCH) Wound Supplies: Captures supply charges.
 - (MCH) Wound Charges: Captures charges for care provided.

<u>STEP 8</u>: Once complete, sign the form by clicking the green checkmark. ✓

JPP Wound & Ostomy PowerPlan

The **Joint Practice Protocol (JPP) – Wound & Ostomy PowerPlan** is used by Wound & Ostomy nurses or a staff member functioning in this role. The PowerPlan is intended for inpatient use. The JPP is only valid for the encounter it is ordered on.

- **<u>STEP 1:</u>** From the patient's chart, go to the **Orders** tab and click **Add**.
- **<u>STEP 2</u>**: Search for the **JPP Wound & Ostomy** PowerPlan.
- **<u>STEP 3</u>**: In the **Ordering Physician** window:
 - Select Order.
 - Enter the appropriate provider's name.
 - Select the appropriate communication type.
 - Click OK.
- **<u>STEP 4</u>**: Click **Done** to close the **Add Order Window**.
- **<u>STEP 5</u>**: Select the appropriate orders.
- **<u>STEP 6</u>**: When complete, click **Initiate Now** button.
 - Select Orders for Signature.
 - Review the orders then click **Sign**.
 - The orders will go to the provider for signature.
