

The Discharge Safety Checklist PowerForm ensures patients meet safe discharge criteria. Please note, this PowerForm is only used at NL EMMC Emergency Department.

Discharge Safety Checklist PowerForm Workflow

➤ To document the **Discharge Safety Checklist** prior to the patient being discharged:

- From the patient’s chart, go to the **ED Nursing Workflow MPage**.
- Navigate to the **Discharge Planning** component.
- Click the drop-down arrow and select **EMMC Discharge Safety Checklist**.
- The **EMMC Discharge Safety Checklist** will display. Complete the form as indicated.
- Once the form has been completed, **sign** the form by clicking the **green checkmark** in the upper left corner.

➤ Viewing **Discharge Safety Checklist** Documentation

- From **iView**, navigate to the **Adult Education** band.
- In the **Discharge Safety Checklist** section, documentation from the EMMC Discharge Safety Checklist can be viewed here.
