

The Pregnancy Overview component on the Triage/Ante/Labor MPage manages patient's pregnancies. This flyer will review the process for managing pregnancies in the acute setting.

Pregnancy Overview

On the Triage/Ante/Labor MPage, the patient's pregnancies will be managed from the Pregnancy Overview component. If there is no active pregnancy on the patient, no components will be displayed.

➤ Add a Pregnancy

- This functionality will be utilized when you need to document a new active pregnancy for the patient.
- Click the blue hyperlink, **Add a Pregnancy**.
- Complete the Onset date and enter **Use as LMP** or **Use as ART Date** and Confirmation method and click OK.

- The components on the Prenatal MPage will now display.
- In the component, options for managing the pregnancy will now display.

➤ Cancel Pregnancy

- This functionality will be utilized if a pregnancy was entered in error.
- This will remove pregnancy off their problem list.
- Click the blue hyperlink, **Cancel Pregnancy**, add a comment for the reason of cancellation in the comment box.

➤ **Modify Pregnancy**

- This functionality would be used if your patient provided an inaccurate LMP.
- Click **Modify Pregnancy** from the Pregnancy Overview component.
- Modify the pregnancy as needed.
- Click **OK**.

➤ **Close Pregnancy**

- This will be utilized when the pregnancy has ended.
- This process will be performed as part of the discharge process.
- This will need to be completed to aid in reporting and to reflect an accurate gestational age for the baby.
- Click the blue hyperlink, **Close Pregnancy**.
- Complete all required details. Information will flow into this tool from charting. More information can be added to this form.

<input checked="" type="checkbox"/> Gestational diabetes mellitus, class A>1<	Associated

➤ Reopen last active pregnancy

- There are times when it is appropriate to open the last pregnancy.
- Situations may include if the patient had left the NLH system and is now an active patient in the NLH system again.
- To perform this action, click the blue hyperlink, **Reopen last active pregnancy**.
- Enter a comment in the comment box, click **OK**.
- Information from the previously closed/cancelled pregnancy will populate on the prenatal MPage.
