

February 6, 2024

Multidisciplinary Rounding (MDR) Tool is being used during multidisciplinary rounding. Tasks assigned through this tool flow to the Dietitian Multipatient Task List (MPTL). These tasks will assist to ensure the discussion of new orders or follow-up items during rounding are completed. These tasks also display on the CareView Dashboard under Barriers for Discharge with an icon specific for the type of task.

### Completing Dietician Tasks from the Multipatient Task List (MPTL)

Many of the tasks going to the MPTL from the MDR Tool begin with Diet or Dietary.

The screenshot shows the 'Multi-Patient Task List' interface. It includes a toolbar with various icons, a section for '5B1A Assigned Tasks', and a 'Nutrition Consults' tab. Below the tab, it says 'Task retrieval completed'. A table lists tasks with columns for 'All Patients', 'Location/Room/Bed', 'Name', 'Task Status', 'Mnemonic', and 'Order Details'. One task is highlighted in blue, and a context menu is open over it, showing options: 'Chart Done', 'Chart Not Done...', 'Quick Chart', 'Chart Details / Modify...', and 'Unchart...'. A red 'Name Alert' is visible in the task name column.

All Patients	Location/Room/Bed	Name	Task Status	Mnemonic	Order Details
<input checked="" type="checkbox"/> TESTING_BUILDONE	5B1A / B579 / 01	*TESTING_CARDIO 12/28/1960	Pending	Diet Modification/Recommendations	Start: 01/16/24 16:31:00 EST
<input type="checkbox"/> TESTING_CARDIO2					
<input type="checkbox"/> TESTING_COVID6MTO4YRS					
<input type="checkbox"/> TESTING_MARY					
<input type="checkbox"/> TESTING_PAYTON					
<input type="checkbox"/> TESTING_TRAVKELCE					
<input type="checkbox"/> TESTING_VALIDFOUR					
<input type="checkbox"/> TESTING_VALIDTHREE					

**STEP 1:** Select the task and right-click to open the documentation options.

**STEP 2:** Select **Chart Done** once the task has been completed.

- A green checkmark displays to the left of the task and the **Task Status** will update to **Complete**.
- Refresh the screen using the **minutes ago** button and the task will fall off the MPTL.

**NOTE:** If the task cannot be done or was already completed, click "Chart Not Done" and select the appropriate option in the "Reason Not Done" dropdown.
