

December 13, 2022

The Rehabilitation Organizer is an interactive organizer that supports communication and patient coordination across the continuum of care. The multi-column view provides a snapshot of patient data. The view is populated based on the therapy position, selected patient list, orders, and documentation.

Rehabilitation Organizer – Outpatient, Inpatient, and Acute

These organizers provide a multi-patient overview of **Outpatient**, **Inpatient** (Inpatient Rehab Facility), **Acute** Rehabilitation clinical information and data, and **Patient Schedule View**.

Customizing Columns and Rows

- Individual therapists/managers can customize the view of the Rehab Organizer and Therapy Manager Organizer.
 - Click the **Page Menu** tab.
 - Select Layout Configuration.
 - Users can drag and drop the columns to the desired location on the **Rehabilitation Organizer**.
 - To remove a column from view, uncheck the box to the left of the column. Recheck the box to bring the column back into view.
 - Select Rows.
 - Users can expand the row height using the radio buttons under **Row Height**. This allows users to expand the patient row to view more information in each row.
 - Click **Apply** to save customization.
 - To change the width of a column, hover between the column grid and left click and drag the column to the right.

Filter Button \geq

The Acute Organizer list can be sorted by diagnosis. •

Organizer Columns

Total Visit Count

- Total Visit count is viewed on the **Outpatient Organizer** tab.
- This column totals all visits for the series encounter.

Activities \geq

- This column displays a list of tasks for the patient once the patient has been checked into the clinic or has an Inpatient Therapy consult ordered.
 - The Therapy Manager will see tasks for all therapy disciplines.
 - Overdue tasks display in red.
 - Selecting **Document** brings the therapist directly to the appropriate form.
 - The activities task will clear from the Activities column and the Multi-Patient Task List after completing the form associated with the task.

Re-Certification Date \geq

The date in which the certification period ends displays in this column in the • Outpatient Organizer tab.

NOTE: This column is seen only by those in the Rehab Ther Manager position.

- Certification Letter Tracking
 - Certification Letters sent using either Forward or Provider Letter will be tracked. •
 - A green circle with a checkmark displays when the in-system provider signs ٠ the Certification form.

Certification Letter Tracking
PT: 🥑

From the Office of Clinical Informatics Rehabilitation Organizer December 13, 2022 Page 3 of 3

- Out of system providers signed Certification letter is scanned into the EHR in the **Outpatient OT Certification Letter**, **Outpatient SLP Certification Letter**, and **Outpatient PT Certification Letter** Note types.
- A green circle with a checkmark displays in the Certification Letter Tracking column after the letter is scanned into the appropriate Note type folder.

Future Appointments

• Displays future therapy appointments for the therapist's discipline only.

Authorization Tracking

• This column pulls from Cerner Patient Accounting (CPA) and currently only populates data for Maine Coast Hospital.

> Comments

- Click the column cell to enter a comment or view existing comments.
- The two most recent comments display in the column.
- A number displays in this column indicating the number of comments.
- Only comments entered by the user are able to be edited or deleted.
- Comments are not part of the medical record and are discoverable.
- Patient Schedule View
 - This tab is an MPage view of the schedule.
