

From the Office of Clinical Informatics **Cerner Millennium BMI** Capture

December 12, 2023

To appropriately code a chart for billing, the patient must meet certain criteria for diagnosis of Class 1, 2, or 3 Obesity. By providing a standardized location and content of current BMI status and Obesity Class, streamlining communication between care members occurs. Nurse documentation of a BMI status assessment populates in the provider's Admission, Transfer, and Discharge Summary Notes.

## Nursing Assessment Documentation

- Obesity Class Documentation
  - The Height/Weight/Allergy Record form fires when • entering a patient's chart in Care Compass.
  - The Height/Dosing Weight form is found within the Admission MPage.
    - Each form shows the criteria needed to **document** Obesity Class and satisfy BMI capture.

## **Documenting Criteria** $\geq$

- Enter the Height and Dosing Weight to calculate the BMI.
- Select Yes or No to document Is the patient less than 18 or pregnant?
  - Selecting No populates the Current BMI Status.
  - Selecting Yes does not populate any further fields.
- If the patient's BMI Status falls within **Class 1**, **2**, or **3** Obesity, the Attestation prepopulates.
- Current BMI Status populates to the provider's Admission, Transfer and Discharge Summary.
- Sign the form using the green checkmark.

## **Provider Documentation**

The Attestation populates to the provider's Admission, Transfer and Discharge Summary for patients with a Class 1, 2, or 3 Obesity.

For questions regarding process and/or policies, please contact your unit's Clinical Educator or Clinical Informaticist. For any other questions please contact the Customer Support Center at: 207-973-7728 or 1-888-827-7728.

Ş Height/Weight/Med Allergy Cerner This patient does not have height, weight or MEDICATION allergies docume - If there are no medication or other allergies, document "No Known Allergies" - If there are non-med allergies, but no medication allergies, document "No Known Medication Allergies" in addition to the non-med allergies - If you cannot obtain allergy information, search within the allergy tool for "Unable to Obtain - If there are medication allergies documented with a category other than "Drug," update to "Drug" Enter Info OK
