

Remote Viewer allows Anesthesia staff or supervisors to view the record remotely while the case is running.

## SurgiNet Anesthesia Remote View

Remote view allows the Anesthesia staff to view open cases from a location outside the operating rooms. This is a view only functionality, not allowing any documentation to be completed.

### ➤ Accessing the Remote Viewer

**STEP 1:** Sign into Surginet Anesthesia.

**STEP 2:** Click Cancel on the Select Case screen.

**STEP 3:** Click Task in the toolbar.

- Click Select Remote View Cases.

**STEP 4:** Select Document Type.

- Click Ok.

**STEP 5:** From the Select Case screen.

- Select multiple cases by using the CTRL button and clicking the cases to view.
- Click Ok.

### ➤ Changing the View

**STEP 1:** Click Windows in the toolbar.

- Select Tile or Cascade view.
