
On August 17, 2020, PowerChart Maternity was implemented at NLH. The implementation of this solution will cross from the ambulatory to the inpatient setting improving the continuity of care provided throughout the patient's pregnancy. Results Copy also ensures all members of the healthcare team have access to information necessary for delivering high-quality care. This flyer will review the process of using Result Copy.

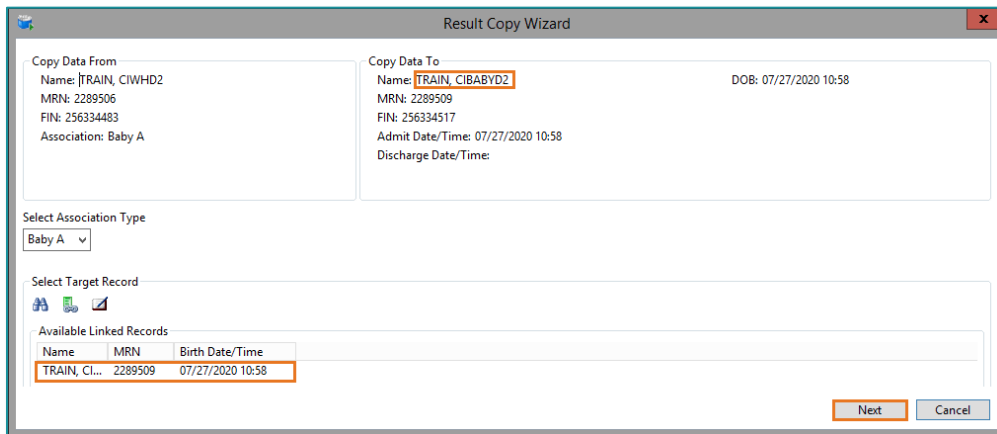

Result Copy

Result Copy is a functionality that will occur multiple times during a mother's hospitalization after the newborn is delivered. This functionality will transfer pertinent information from the mother's chart regarding the newborn to the newborn's chart.

NOTE: Before the initial Result Copy occurs, the baby needs to be registered via the Tracking Board.

➤ Result Copy

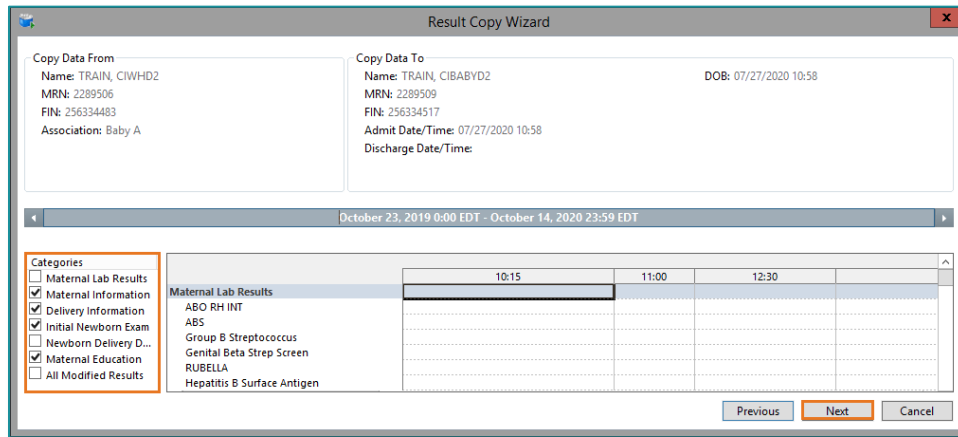

- From the mother's chart, in the toolbar, select **Result Copy**. 
- A box will appear for verification of the chart that information is to be copied to.
- Review the information then select **Next**.

Name	MRN	Birth Date/Time
TRAIN, Ci...	2289509	07/27/2020 10:58

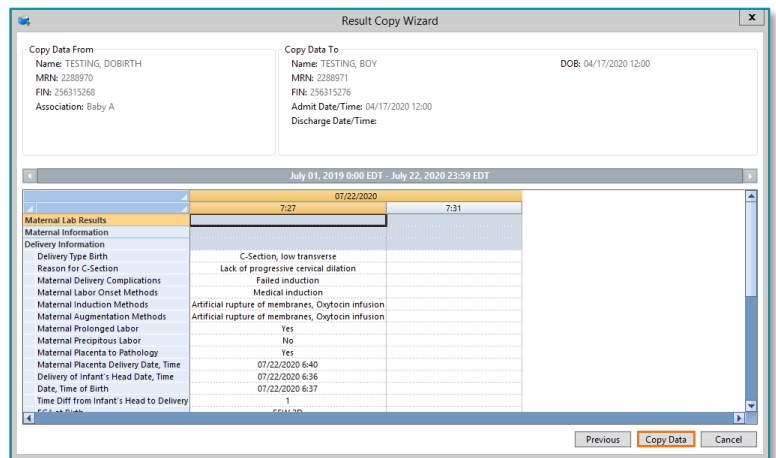

- If the baby's information is not displayed, search for the baby using the binoculars. It is important to ensure the correct baby is selected before clicking Next.
 - There will be a box with potential information to be transferring from the mother's chart to the newborn chart.
-

- If there is information to be transferred, there will be a black check in the categories that has new information to be transferred to the newborn chart.

NOTE: DO NOT CHANGE ANY OF THE INFORMATION THAT IS TO BE COPIED.

- Select Next.
- The information being transferred will be displayed.
- Select Copy Data.

➤ Key times to perform Result Copy

- Perform the initial Result Copy after the baby is registered and the delivery information has been entered.
- Perform Result Copy after the initial newborn exam has been documented.
- Perform Result Copy as part of your shift handoff.
- Perform Result Copy before mom is discharged.
- Result Copy can occur anytime that new information is entered, or new maternal lab results have been received.
