Providers

## Reviewing Orders

1. Tap **Order** at the bottom of the view.

2. Tap the **arrow** in the order row to display details for the order in a split view. The list of orders is on the left and details for the order you tapped are on the right.

3. Tap any order on the left to view details for that order.

## Discontinuing Orders

1. Swipe right to left on the order you want to discontinue.
2. Tap **Discontinue**.

3. Tap **Sign**.
4. Tap **Confirm**.

## Refilling Orders

1. Swipe right to left on the order you want to refill.
2. Tap **Refill**.

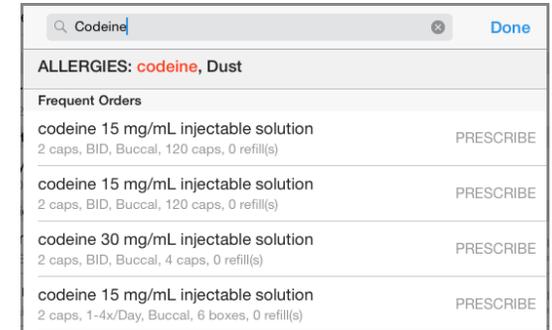

2. If a red interaction icon  is displayed, tap it to view a description of the interaction.
4. Tap **Complete** or **Remove** on the interaction.
5. If a prescription routing is not set, the Map icon  is displayed. Tap it, and select a pharmacy, printer, or do not send option.
6. Tap **Sign**.
7. Tap **Confirm**.

## Adding Prescriptions and Orders

*Note: Adding prescriptions is available only in the ambulatory setting.*

1. Tap **Add**  at the top of the Orders view.
2. Search for the prescription or order you want to add.

3. Tap the order in the search results, then tap **Done**.
4. Tap the order details for the new order row to modify them.
5. If a red interaction icon  is displayed, tap it to view a description of the interaction.
6. Tap **Complete** or **Remove** on the interaction.
7. If a prescription routing is not set, the Map icon  is displayed. Tap it, and select a pharmacy, printer, or Do Not Send option.
8. Tap **Sign**.
9. Tap **Confirm**.
