

A new ambulatory PowerPlan has been built specifically for Orthopedic injections. This flyer reviews the PowerPlan and how to interact with it.

Where to find the PowerPlan order

This PowerPlan, titled **AMB Ortho Injections**, can be found on the Orthopedic Quick Orders page, in the Medications component:

How to use the PowerPlan

- **Once the PowerPlan opens you will see the plan divided into multiple sections based on joint:**
 - AC Joint
 - Shoulder
 - Elbow
 - Knee
 - Hip
 - Ankle
- **Within each joint section you will find the following orders:**
 - Applicable procedure charge code for the selected joint.
 - Various medications used for injections for both lateralities, left and right.

STEP 1: Select the appropriate **check box(es)** as applicable to your patient.

STEP 2: Fill in any required **order details** as indicated, with a blue circle with white X, by double clicking in the 'Details' column of the order.

NOTE: You can save a plan as a favorite after all order details have been filled out to simply future ordering of these injections. Please refer to the '[Saving a Plan as a Favorite](#)' section below for additional instructions.

STEP 3: Select the **Initiate Now** button.

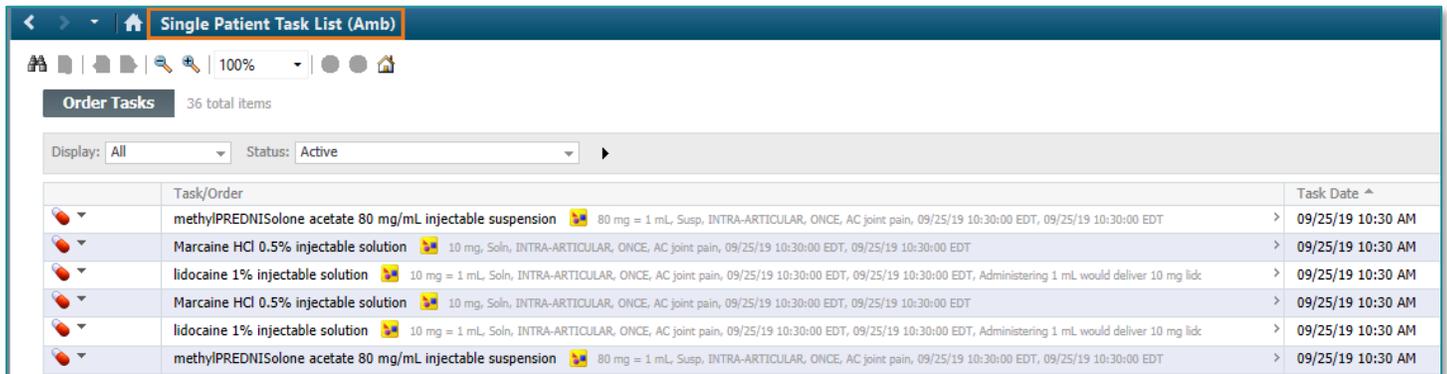

STEP 4: Select an appropriate diagnosis from the **Diagnosis Selection** pop up window and click **OK**.

STEP 5: Select the **Orders for Signature** button. 

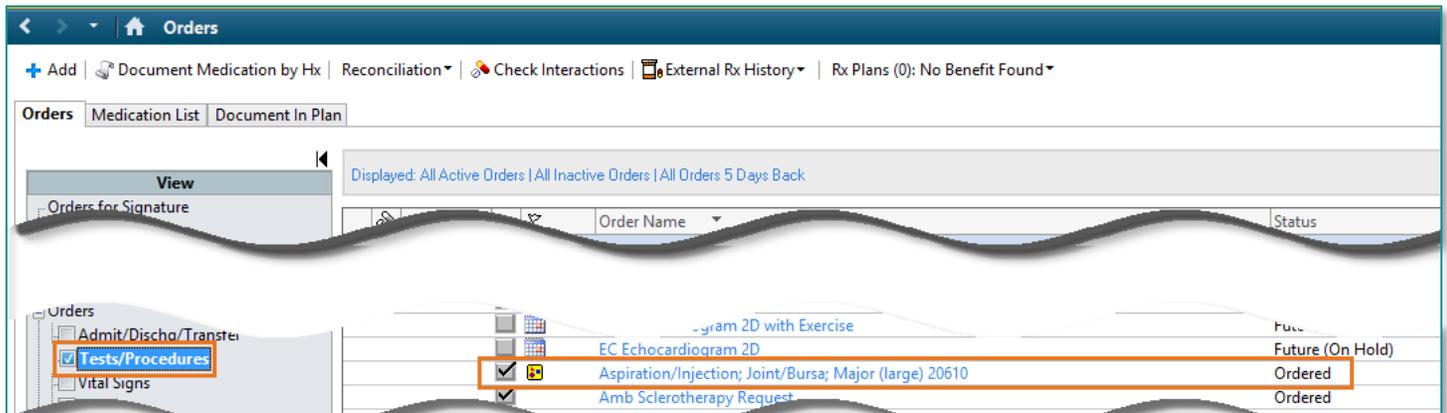

STEP 6: Select the **Sign** button.

Where Will the Orders Go?

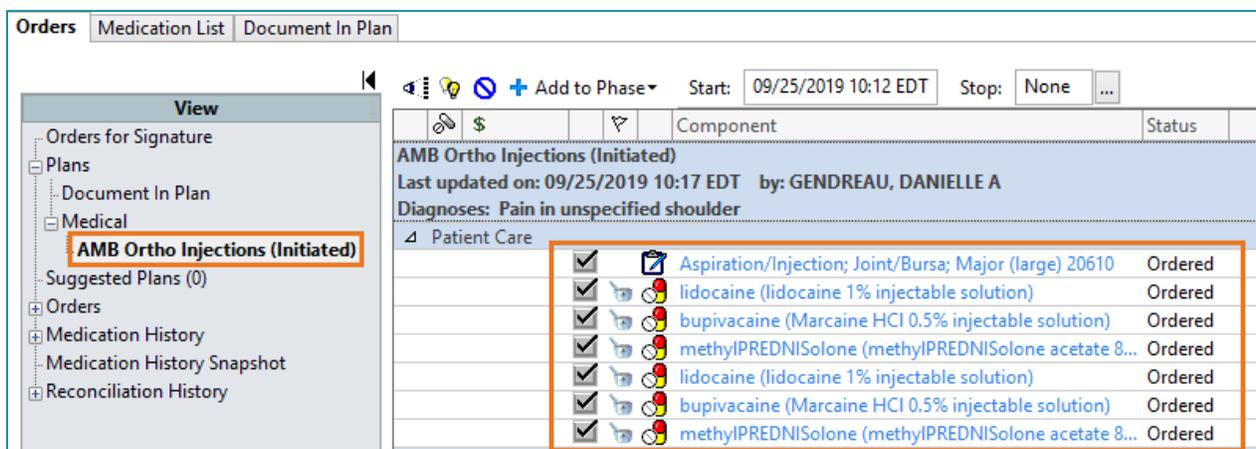

- The medication orders will fall to the Single and Multi-Patient task lists to be addressed by the clinical staff.

- The procedure charge order will be seen in the **Orders** profile, under **Tests/Procedures**.

- All the order selected in the PowerPlan can be viewed at a quick glance from the **Orders** profile, under **Plans**.

How Will the Orders Be Managed?

- Clinical staff, or providers drawing up their own medications, need to complete the medication task(s) from the **Single Patient Task List** for a charge to drop.

Documentation includes information such as:

- Medication Lot #
- Expiration date
- Laterality/site of injection

Saving a Plan as a Favorite

- Once the Plan is ordered and all appropriate order details are filled out:

STEP 1: Select the **Save as My Favorite** button.

STEP 2: Title your plan as you would like to see it in the future.

STEP 3: Click **OK**.

Where Does a Saved PowerPlan Favorite Live?

- You can find the newly saved PowerPlan on the Quick Orders page, in the **New Order Entry** component.
