

# ICU Nurse

## Checklist – Critical Care Optimization

**Document and forward any additional questions that you are unable to answer to the appropriate member of the team. Do not leave concerns open-ended; YOU are responsible for following up.**

*Ensuring Patient Safety is of the utmost importance during a go-live period. Should you become aware of any incident that results in patient harm, do encourage the EMHS staff person closest to the incident to submit the incident through their usual Risk Management tools, but also relay the incident to your Elbow Support supervisor so that they may relay it on to the appropriate persons within the Command Center. It may not always be obvious as to whether the patient harm was a direct or indirect result of the introduction of the new EMR tools and workflows. The Command Center will want to work swiftly with Risk Management to quickly drill to root cause and mitigate for others. Your relay of this information will assist with that process.*

**Please note the following are priorities during your time with the provider:**

- Critical Care Worklist
- ICU Liberation Worklist
- PICU Liberation Worklist
- Nurse Handoff MPage Components: ICU Liberation Bundle, Oxygenation/Ventilation, Pathology
- ICU Liberation Bundle
- PICU Liberation Bundle

**Date:** \_\_\_\_\_

Task	Yes	No	N/A
<b>1. Critical Care Worklist</b>			
Access list from toolbar (View)			
Batch Establish Relationships with Select Rows Button			
Customize columns and rows via Layout Configuration			
Modify width of columns			
Click column header to sort			

## Critical Care Optimization Checklist

Click box within column to view pertinent information			
<b>2. ICU Liberation Worklist</b>			
Access list from toolbar (View)			
Batch Establish Relationships with Select Rows Button			
Customize columns and rows via Layout Configuration			
Modify width of columns			
Click column header to sort			
Click box within column to view pertinent information			
<b>3. PICU Liberation Worklist</b>			
Access list from toolbar (View)			
Batch Establish Relationships with Select Rows Button			
Customize columns and rows via Layout Configuration			
Modify width of columns			
Click column header to sort			
Click box within column to view pertinent information			
<b>4. Nurse Handoff MPage</b>			
Introduce new components: ICU Liberation Bundle, Oxygenation/Ventilation, Pathology			
Pull in components from Page Menu			
Customize components by drag and drop			
Filter by time			
Refresh by component			
<b>5. ICU Liberation Bundle</b>			
Nurses at Inland and SVH will need to use My Experience to change their position to the Nurse ICU position or pull the band in when they care for higher acuity patients.			
Pull in navigator bands if not in view			
Introduce new bundle and new DTAs in view			
Discuss new location of Vent Bundle			
Discuss how to document, modify and unchart			
Discuss how to modify/filter documentation time			
<b>6. PICU Liberation Bundle</b>			
Pull in navigator bands if not in view			
Introduce new bundle and new DTAs in view			
Discuss new location of Vent Bundle			
Discuss how to document, modify and unchart			
Discuss how to modify/filter documentation time			
<b>7. Weird Gotchas</b>
