

Inpatient Provider

Checklist – Critical Care Optimization

Document and forward any additional questions that you are unable to answer to the appropriate member of the team. Do not leave concerns open-ended; YOU are responsible for following up.

Ensuring Patient Safety is of the utmost importance during a go-live period. Should you become aware of any incident that results in patient harm, do encourage the EMHS staff person closest to the incident to submit the incident through their usual Risk Management tools, but also relay the incident to your Elbow Support supervisor so that they may relay it on to the appropriate persons within the Command Center. It may not always be obvious as to whether the patient harm was a direct or indirect result of the introduction of the new EMR tools and workflows. The Command Center will want to work swiftly with Risk Management to quickly drill to root cause and mitigate for others. Your relay of this information will assist with that process.

Please note the following are priorities during your time with the provider:

- Critical Care Worklist
- ICU Liberation Worklist
- PICU Liberation Worklist
- Provider Workflow MPage Components: ICU Liberation and Oxygenation/Ventilation

Date: _____

Consultant Name: _____

Staff Member Name: _____

Staff Position: _____

Task	Yes	No	N/A
1. Critical Care Worklist			
Access list from toolbar (View)			
Batch Establish Relationships with Select Rows Button			
Customize columns and rows via Layout Configuration			
Modify width of columns			
Click column header to sort			
Click box within column to view pertinent information			
2. ICU Liberation Worklist			
Access list from toolbar (View)			
Batch Establish Relationships with Select Rows Button			
Customize columns and rows via Layout Configuration			
Modify width of columns			

Critical Care Optimization Checklist

Click column header to sort			
Click box within column to view pertinent information			
3. PICU Liberation Worklist			
Access list from toolbar (View)			
Batch Establish Relationships with Select Rows Button			
Customize columns and rows via Layout Configuration			
Modify width of columns			
Click column header to sort			
Click box within column to view pertinent information			
4. Provider View Inpatient 2018 MPage/Intensivist 2018 MPage			
Introduce new components: ICU Liberation Bundle and Oxygenation/Ventilation			
Pull in components from Page Menu			
Customize components by drag and drop			
Filter component by time frame			
Refresh by component
