

Northern Light Laboratory Order – New Orders

On Tuesday, May 14, Laboratory orders indicated below will no longer be placed using a Flexitest order. The update will align the new Laboratory orders with the Quest Diagnostics test codes and streamline the ordering process by removing the additional steps to place these as Flexitest.

Results will populate the appropriate laboratory results section of the Labs Flowsheet component and Results Review. Turnaround time for these Laboratory results can be found on the [Quest Diagnostics Test Directory](#) in the Setup Schedule or by contacting [Contact Lab](#) or [Customer Service](#) to determine turnaround time.

NOTE: If the laboratory order was saved as Flexitest order Favorite, please remove and replace with the new order name as listed below. Click [here](#) for more information on how to manage order favorites.

New Insulin Response to Glucose Orders

NLH Test Name (What providers see)	DEPT Display Name (What the Lab sees)	Quest Test Code
ACTH Stimulation, 2 Specimens	ACTH 2	#14571
ACTH Stimulation, 3 Specimens	ACTH 3	#14930
