

Seamless Exchange Soft Launch Go-Live Hospitalist Physicians & EMMC Pediatric Primary Care

On **Tuesday, June 4**, **Seamless Exchange** will be enabled for all **NLH Hospitalist Physicians** and **EMMC Pediatric Primary Care**. Seamless Exchange will be launched systemwide on **July 9**. Details will be provided on additional affected roles in the systemwide launch in the coming weeks.

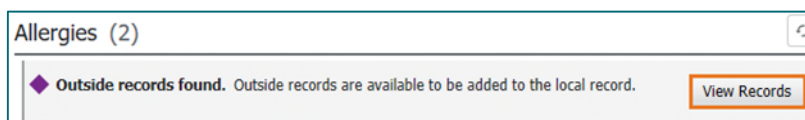

Seamless Exchange allows information from health systems outside of **Northern Light Health** to be brought directly into the patient record, allowing for timely reconciliation of **medications, allergies, problems, and procedures** within **existing Inpatient Provider and Ambulatory Workflow MPages**. Clinical information available within Seamless Exchange will include **nationwide data**, as well as content similar to that within **Maine HealthInfoNet**.

Seamless Exchange enhances provider workflows by eliminating the need to leave Cerner to search for external patient information.

Workflow Component Reconciliation

The following components will be used to reconcile outside records, indicated by a purple diamond:

- Allergies
- Home Medications
- Histories (Procedures)
- Problems

Click the link for more information on [provider](#) and [ambulatory nursing](#) workflow.

Clinical Informatics – Please share this information with **all Hospitalist Physicians and EMMC Pediatric Primary Care Providers and Clinical Staff** and make this a topic of discussion in upcoming rounding.

Behavioral Health: This information **does not** affect behavioral health caregivers.

NOTE: This mailbox is not frequently monitored. [Please direct any questions to the Clinical Informatics team using this link.](#)
