

Oncology Joint Practice Protocol

On **Monday, March 11**, the **Oncology Joint Practice Protocol (JPP)** will be available for use at **NL Cancer Care Brewer, NL Cancer Care AR Gould, and NL Cancer Care Ellsworth** locations. The Oncology JPP provides clinical staff the ability to place orders as part of the approved JPP for patient care.

Overview of Updates

With the creation of the Oncology Joint Practice Protocol, the workflow for ordering magnesium and potassium replacement will be updated:

- The **Magnesium Replacement Protocol subphase** will be removed from any plans containing this subphase.
- An **ONC Provider Communication** order will be added to the plans in the place of the magnesium replacement protocol subphase instructing nursing to review magnesium and/or potassium levels and replace using Oncology JPP.

Click [here](#) for more detailed information on using the Oncology Joint Practice Protocol.

Clinical Informatics – Please share this information with **Providers, Nurses, and Pharmacists** at **NL Cancer Care Brewer, NL Cancer Care AR Gould, and NL Cancer Care Ellsworth** and make this a topic of discussion in upcoming rounding.

Behavioral Health: *This information **does not** affect behavioral health caregivers.*
