

Implementation of Multi-Disciplinary Rounds Tool: Task Updates

On Tuesday, April 2, Nursing, Care Management, Social Work, Respiratory Therapy, Dietary, Ostomy, Pharmacy, Physical, Occupational, and Speech Therapies will start seeing additional tasks within their task lists. Each discipline may receive a task determined by multidisciplinary rounds as identified barriers to patient discharge. Clinical staff will mark a task as **Done** or **Not Done**, which will prompt staff to complete at the time it is ordered. This implementation will aid in managing patient flow and ensure orders are complete for safe and timely patient discharge.

See appropriate link for specific discipline workflow:
